KENTUCKY REPUBLICAN PLATFORM.

Adopted at Louisville, Oct. 19th, 1907.

Resolved, by the Republican party in Convention assembled—

First.—That we reaffirm the principles of the Republican party as set forth in the platform adopted by it at St. Louis in 1896.

Second.—That we endorse the Republican National and State Administrations, and especially commend the action of our present state officials in their efforts to suppress mob violence and to preserve the financial credit of the state.

Third.—We commend the action of the representatives of the Republican party in the passage of a tariff bill which will raise revenue sufficient to support the Government, prevent the issue of interest-bearing bonds, protect American labor and maintain the National credit.

Fourth.—We are opposed to a system of Civil Service that builds up an official class with practically little life in almost all branches of the public service, and we demand that the Civil Service Law be modified so as to limit the terms of service to four years, with the privilege of reappointment or promotion, subject to such restrictions as will secure competent officials and give to every section of the country its proper proportion of them.

Fifth.—We heartily sympathize with the struggling people of Cuba in their efforts to secure liberty and independence.

Sixth.—That we recommend to the people the adoption of the Constitutional amendment submitted by the late Legislature, allowing all cities and towns the privilege of regulating under legislative supervision the method of levying the taxes they impose on themselves for city and town purposes.

Seventh.—We favor the passage of a law that will protect the laborers of Kentucky from the competition of convict labor, and, if necessary, to accomplish said end, an amendment to the Constitution permitting such legislation.

"The best way to get rid of a bad law is to enforce it."—General Grant.

Therefore THE LEDGER favors the rigid enforcement of the Civil Service Law.

The Democratic grators who were expecting to make mince-meat of the feature of the Dingley Law relating to exportation of American manufactures have lapsed into singular silence. Nor are they making comparisons of the exportations under the new law and those of a year ago under the Wilson Law.

For their exclusive information, attention is directed to the fact that these exportations aggregated during the second month of the Dingley Law \$108,340,000 as against \$83,768,000 in the corresponding month of last year.

CRUDE COAL OIL

Recommended as Fuel on Small Craft in the Navy.

Cylindrical Boilers Being Generally Replaced on War Vessels.

Argument in Favor of Building United States Ships in China—The Government Will Lose Nothing on Account of \$900,000 in Oils and Warrants.

WASHINGTON, Oct. 27.—The gradual replacement on war vessels of the familiar cylindrical boiler by various forms of the water tube boiler constantly being made, has led to the marine engineering at this time, according to Engineer-in-Chief George W. Melville, who has just published his annual report to the secretary of the navy. For torpedo boats, he says the advantage of the boiler was evident when they quickly displaced the old types and have now been used for several years exclusively for this kind of craft.

Touching liquid fuel with which many nations are experimenting as a substitute for coal, the report gives an interesting history of those made in this country. Included in this list is the test made by the Pennsylvania Railroad Co. about ten years ago, which, while proving the practicability of using crude coal oil for a motive power, decided against its use on the Pennsylvania railroad itself because of the output of coal at that time it was used for fuel for coal.

Nevertheless the balances of advantage are so greatly in favor of the water tube boiler that the navy has expressed the intention of making use of coal oil on torpedo boats.

Commodore Melville makes a strong argument in favor of building our ships in future in classes, so as to secure the great advantages that follow the training of men for the various classes of ships instead of for one vessel, and also the ability to use duplicate parts of machinery. It is recommended that the machinery of ships laid up in reserve with skeleton crews be subjected every six months to a dock trial with steam pressure, and that the crews be ready for use at short notice.

The bureau has been making some inquiries as to the possibility of procuring large merchant ships in an emergency to serve as machine shop for fleets, and having secured a list of suitable vessels, it is estimated that an estimate of \$25,000 for machine tools to be laid aside for fitting one of them out with the machinery of a battleship.

The engineer-in-chief has a good deal to say in his report on the subject of personnel, and he insists that he is warranted in saying that the navy needs of careful observation and study, two things as necessary to the highest efficiency of the navy as the navy itself.

First, an increase of numbers of the corps from 105 officers of all grades to about 300, so divided as to the various grades as the machinery of ships laid up in reserve with skeleton crews be subjected every six months to a dock trial with steam pressure, and that the crews be ready for use at short notice.

Second, an increase of the number of the corps of actual rank and titles (with the names of the corps attached), to be the case for the staff officers of the army.

Government officials are at a loss to know on whom will fall the loss by the \$200,000 of bogus warrants on account of the Greek Indian payment which are now out. The government will not be able to recover the money on account of these warrants has been paid out in an intermediary way. Whether the Greek nation, which is said to have paid some \$200,000 of bogus warrants, or the parties, who are known to have cashed at least a part of them on a premium of 100 per cent, or others who have understood the loss is not known. Secretary Biles stated Tuesday that while there was about \$200,000 of bogus warrants out, the government had not been paid, but he said, he did not know whether the warrants had not been paid, he said, but he did not know whether the warrants had not been paid.

ANOTHER BID

From the Reorganization Committee of the Union Pacific Railroad, the following is the bid for the sale of the Union Pacific Railroad.

WASHINGTON, Oct. 27.—The indications now are that the government may yet reconsider its determination to sell the Union Pacific Railroad, but there are reasons for the belief that the government has received or is hourly expectation of receiving a very material increase in the guarantee of the reorganization committee. This proposition is believed to be against the guarantee of the reorganization committee, and the date originally fixed upon. This increase, it is reported, will make the government's guarantee equal to the full amount of the government's claim against the Union Pacific Railroad, and the government will be able to take possession of the day first agreed upon.

There is no longer any doubt that the reorganization committee has increased its guarantee for the sale of the Union Pacific Railroad proper to the full amount of the government claim against the Union Pacific Railroad, and the government will be able to take possession of the day first agreed upon.

Marine Band Will Not Parade the Streets.

WASHINGTON, Oct. 27.—Because of the fear of the competition of the Marine band, the secretary of the navy has revoked the permission which he gave the organization some time ago to go to Chicago to furnish music for the horse show next week.

CHICAGO POLICE FORCE CHARGE.

THE FIRST THANKSGIVING DINNER.

Indian Chief's Hospitality Entertained by Pilgrim Fathers.

The first Thanksgiving was appointed by Governor Bradford, at Plymouth, Massachusetts, in 1621, the year following the landing of the Pilgrims, in order that the Colonists in a more special way could rejoice together at having all things in good and plenty, writes Clifford Howard in the November Ladies' Home Journal. In preparation for the feast "gunners were sent into the woods for wild turkeys, which abounded there in great numbers; kitchens were made ready for preparing the feast—especially the large one in Dame Brewster's house, which was under the immediate direction and charge of Priscilla Moline, who afterward became the wife of John Alden—while a messenger was dispatched to invite Massasoit, the chief of the friendly tribe, to attend to celebration.

"Early on the morning of the appointed Thursday—about the first of November—Massasoit and ninety of his warriors arrived on the outskirts of the village, and with wild yells announced their readiness to enjoy the hospitality of their white brethren. The little settlement, which now consisted of seven dwellings and four public buildings, was soon swarmed with men, women and children, who gave the Indians a hearty welcome as they filed into the large square in front of the Governor's house. Soon the roll of a drum announced the hour of prayer, for no day was begun without

this religious service. Then followed a holiday of feasting and recreation, which continued not only that day but during the two succeeding days. The usual routine of duties was suspended; the children romped about in merry play; the young men indulged in athletic sports and games in friendly rivalry with the Indians; the little American army of twenty men, under the leadership of Miles Standish, went through its drill and manual of arms, to the great delight and astonishment of the natives, while the women busied themselves in the careful preparation of the excellent meals, which were eaten in the open air."

Indigestive poisons are the base of the dyspeptic's life. When sick, see if your sickness is caused by indigestive poisons. If so, take Shaker Digestive Cordial. This is the only certain way of being permanently cured, because it is the only way that gets rid of the poisons. You know that fermented food is poisonous. You know that poison is unhealthy. Shaker Digestive Cordial cleans the stomach of fermenting food, and purifies the blood and system of indigestive poisons. It cures indigestion and the diseases that come of it. Headache, dizziness, nausea, homesickness, weakness, flatulence, constipation, loss of appetite, irritability, etc. These are a few of the symptoms, caused by indigestive poisons, cured by Shaker Digestive Cordial.

At drugists, price 10 cents to \$1 per bottle.

Cheap Pianos

built on the patchwork plan, cases made at a place, works at another, then thrown together by a self-styled "manufacturer," are offered daily at prices so ridiculous, as to convince any intelligent person of their utter worthlessness. In marked contrast are our

Low Priced Pianos

which are remarkable for tone, touch, finish and durability as well as price. Come and hear them, and investigate not only the instruments but also our plan of easy payments.
